- ✓ Experience

Precise results

in record time.

Engineering developments to build with quality, minimizing work deadlines and budgets.

On-site surveys, model generation and drawing extraction.

SOME APPLICATIONS

- ✓ 2D drawings as built.
- ✓ Final 3D model (BIM).
- ✓ Remodeling of facilities.
- ✓ Lay-Out changes.
- ✓ Scanning for asset management.

DELIVERABLES DOCUMENTS

- ✓ Point cloud.
- ✓ BIM model.
- ✓ 2D drawings
- ✓ Videos and animations
- Virtual reality.

Latest generation equipment

Faro focus 3D X 330

Extended scanning, 330m range, easy positioning, built-in GPS receiver, and external scanning capability.

LEICA GEOSYSTEM, BLK360°

Observe, design and interact in virtual reality.

Capture, Processing and Modeling

Let us collaborate with you. delivering your project accurately, on time and assisting with BIM / CAD consulting, content creation and production.

Our services

ENGINEERING

Engineering solutions for your projects.

PROCESS EQUIPMENTS

We design and supply packaged equipment for the industry.

MOUNTING

Industrial mounting service under strict conditions of excellence and quality.

TALENT MANAGEMENT

Specialized Human Resources solutions for your requirements.

ABOUT US

Ingenera is a company dedicated to the provision of engineering services, equipment manufacturing and assembly. We take on EPC and EPCM projects, developing engineering solutions in industrial projects.

We provide comprehensive Engineering and Management solutions allowing our clients to orient their efforts in those activities that are

their main business, generating synergy between Ingenera and its clients to achieve the best results with their projects.

We are persuaded that engineering is essential for the development of our society by improving the quality of life with corporate social responsibility and a strong commitment in caring for the environment.

STRATEGIC ALLIANCES
